POLIZEI
Nordrhein-Westfalen
Landeskriminalamt

Das LKA NRW ermittelt: Wir suchen Sie.

Making crime-fighting successful is our goal. In many areas, the services of our approximately 1,800 employees are a decisive basis for preventing and solving crime in NRW. You, too, can be part of this.

We are looking for the next possible date for a

Project Manager (f/m/d)
for Department 41, Subdepartment 41.3 „Software Development"
Reference number: 2022-Tarif-071

The position will be graded to pay group 14 TV-L, provided that the requirements under collective bargaining law and personal qualifications are met.

The cybercrime (CC) phenomenon is subject to constant and highly dynamic change. New CC phenomena are constantly establishing themselves and will continue to do so in the future. Law enforcement agencies must quickly absorb these developments and respond to them adequately. That is why we are building up our competencies in the areas of big data analytics and artificial intelligence (AI) with a new team of AI experts (f/m/d).

This team will become part of the Cybercrime Competence Center of the LKA NRW. The Cybercrime Competence Center consists of investigative commissions for outstanding proceedings in the field of computer crime, the Child Pornography Evaluation Unit, the State Central IuK Investigation Support Unit, the Lawful Interception Unit, and services for the evaluation, analysis, and prevention of computer crime.

The subdepartment 41.3 designs, implements, tests, and supports software solutions for the NRW police. We work with agile methods (e.g., based on Scrum), and our requirements for the project team members are correspondingly agile.

We will be happy to answer any questions you may have about your future job and our subdepartment. Please do not hesitate to contact us.

What you can expect

- ✓ Acquisition, conception, planning, and management of software development projects in the AI area
- ✓ Elicitation and preparation of technical requirements (requirements engineering)
- ✓ Conception and implementation of data management procedures
- ✓ Establishment and maintenance of knowledge management for AI software development
- ✓ Communication and coordination of data protection and IT security issues for own as well as commercial solutions with the corresponding departments

Mandatory skills

- ✓ Completed university studies in the field of business informatics, data science or communication, or information science (DQR level 7)
  or
  Relevant, proven professional experience of at least three years with a degree at DQR level 6 (Bachelor, Diplom (FH)).
  Additionally:
- ✓ Provable experience in Artificial Intelligence or Machine Learning through relevant theses, courses, student activities, or professional experience.
- ✓ Demonstrable experience in dealing with big data and data management projects
- ✓ Experience in setting up, establishing, maintaining, and further developing knowledge management for the task portfolio
- ✓ Experience in the functional and technical management of software development projects

What we would like to see

- ✓ Good knowledge of German and English
- ✓ High willingness to innovate and learn, self-reliance

- ✓ Experience in data and knowledge management
- ✓ Experience in agile methods, for example, Scrum
- ✓ Good knowledge of standard office communication software

In addition, you bring the following skills with you

- ✓ Ability to work in a team
- ✓ Willingness to cooperate and ability to deal with conflicts
- ✓ High desire to innovate and learn
- ✓ Independence and result orientation

To work for the North Rhine-Westphalia police, you must undergo a security check following the NRW Security Check Act (Sicherheitsüberprüfungsgesetz NRW - SÜG NRW)[1], which you and your wife/husband or your partner with whom you live in a marriage-like relationship must agree to.

The performance of the job in part-time employment is possible in principle.

What we offer

- excellent technical equipment
- modern working environment
- work predominantly remote

- opportunities for further training
- flexible working time models
- good compatibility of family & career

We promote the professional development of women. We, therefore, particularly welcome applications from women. Women are given preferential consideration by the provisions of the LGG NRW and the LBG NRW unless reasons relating to the person of a competitor prevail.

We endeavor to recruit severely disabled persons and persons of equal status within the meaning of Section 2 of the Social Code IX (SGB IX); applications from this group of persons are expressly encouraged.

As part of the work-life balance, we offer a parent-child office, child holiday care, and proper and reliable childcare support through BUK-Familienservice (www.buk-familienservice.de).

Please note that when you submit your application, the data required for the selection process will be temporarily stored following Section 18 (1) of the German Data Protection Ordinance (DSGVO).
